

## Admission Test Syllabus 2026-2027

### Class KG-1

As part of the admission process, we will assess your child's readiness for KG1 through various activities focusing on:

**Motor Skills:** Observing how your child handles tasks such as gripping a pencil, coloring, and using scissors.

**Color Recognition:** Assessing your child's ability to identify and name colors.

**Language Development:** Engaging your child in simple conversations to evaluate language comprehension and expression.

**Social Skills:** Observing interactions with peers and adults to assess social readiness.

Please note that the assessment is conducted in a friendly and supportive environment to understand each child's unique abilities and needs. Our goal is to ensure a smooth transition into kindergarten and provide the necessary support for your child's development.
